2. * **Approval of Minutes** – The minutes for October 24, 2018 are attached.
3. * **E. Clark Street Development** – We have shared with Council the feedback received from local developers regarding the RFP document. They are considering other development incentives to attract developers to the project. We have attached a construction estimate for the city to build the necessary infrastructure to support the development.
4. **Downtown Development Along Hwy 81** – At the November Work Session meeting, Council had no major objections to the DDA exploring options for commercial development on the city's property fronting Highway 81. This is a good opportunity for the DDA to brainstorm development ideas for the property.
