City Of Oxford
Mayor and Council
110 West Clark Street
Oxford, Ga 30054

Mayor and Council,

We respectfully request to have the property located at 435 West Richardson Street, Plat attached, (tax parcel 00600 00000 049 000) be removed from City of Oxford electrical service area. Snapping Shoals EMC has previously run service for a security light some 15 years ago. We have built a barn. The electrical contractor has been paid to run underground from the pole already in place to the barn. It would be a hardship for both City of Oxford and me for you to supply the electricity. For you a great expense for very little usage. This is a barn and will generate very little revenue. I would guess somewhere close to \$100,000.00 in expense for Oxford and I will not agree to overhead lines and clear cutting. Thank you in advance for the approval of my request.
