

RECYCLING

The City provides two recycle bins for each residence.

Newspaper, recyclable plastics, steel, and aluminum cans may be recycled through this curbside service.

The city no longer accepts glass. Residents can take their glass items to a recycling center.

Because the landfill situation has become critical, all citizens are urged to recycle as many items as possible. Recyclables are collected on Thursdays.

This list includes items that can be recycled:

Newspaper and Inserts	Paperback Books
